0	11	Simplex	146.420	100.000		
0	12-49					
1	50-99		440 bands			
1	50		unused			
1	51		441.725	82.500	+	
1	52		443.525	107.200	+	
1	53-99		unused			

Group Scan - Kenwood TH-F6A
 Dividing the memory channels as shown above, into groups allows one to scan designated groups.
 If you want to scan only the emergency frequencies (group 2), you would:
 Press [MR]
 Select a memory channel within the group you want to scan (i.e., group 2)
 Press [MHz] (1 s) (which means hold for 1 second)

	VHF Repeaters other than above or other favorites	PL	Offset
	K6POU / Mt Diablo	145.190	100.000
